

Bedtime Stories For The Little Ones

UNCLE WIGGLY AND THE SLIPPERY SLIDE.

By HOWARD GARIN.

When you go out, Uncle Wiggly, called Nurse Jane Pussycat, the musty old housekeeper, as the bunny rabbit stood on the porch of his hollow stump bungalow one morning, "when you go out today, be sure and put on your rubbers."

"Why so?" asked Mr. Longears, can't like and a bit curious.

"So you won't slip and fall," answered Nurse Jane. "I am going to ask you to carry a glass of jelly to Aunt Lettie, the goat lady. She is so nervous she can't sleep, and perhaps some of your jelly will help her. Wouldn't you want to slip and fall when you are carrying it, and that's why I said to put on your rubbers."

"Oh, I'll do that all right," said Uncle Wiggly. "I don't want to slip and fall any more than the glass of jelly does. So, if you please, get it ready as I'm going out now."

So, while the bunny put on his rubbers, that he might not slip and fall, for it was icy and snowy in the woods and fields, Nurse Jane wrapped up the glass of jelly for the goat lady.

"Aunt Lettie will be very glad to see you," said Nurse Jane, as Uncle Wiggly started off.

"And I'll be glad to see her," he said. "Over the fields and through the woods went the bunny rabbit gently, wondering what sort of adventure he would have that day, when, as he happened to look back over his left shoulder he saw the old slipper slide chasing along after him."

"He! I had better run!" said Uncle Wiggly to himself. "He may be only after this glass of jelly, but, at the same time, he may want some more of my ears. I had better hurry!"

So Uncle Wiggly trotted along as fast as he could, taking care not to slip or fall or stumble. But fast as he hopped, the slipper slide hopped faster.

NOTE LEVERAGE ROOFLESS

Old style fullplate. Roofless.

Look at these two plates and use your own reasoning. The roofless has suction on both sides (2), soft rubber next to sore gums. Designed to be put in immediately after extraction. It does not touch the hard base in the roof of the mouth, therefore, it settles with the gums and makes its own bed. No full roof plate can compare with the fit of this plate, as it settles into its bed, lighter, more tongue room, clearer speech.

Dr. Williams has been making this plate for ten years, and is thoroughly familiar with its construction. Made only by us in El Paso.

NOTE OUR LOWEST PRICES

Full Plates.....\$10 up
Gold Crowns (best made).....\$5
Bridge work, per tooth.....\$3

Hogwallow Locals

By DINK HOTTS

The next time you buy calomel ask for

Calotabs

The purified calomel tablets that are entirely free of all sickening and salivating effects.

Medicated citric easily absorbed. Guaranteed by your druggist. Sold only in sealed packages. Price 30c.

Old Folk's Coughs

will be relieved promptly by Pico's. Scope (sweet thick) relieves irritation. The remedy used by more than fifty years of use in

PICO'S

Just Once! Try Dodson's Liver Tone!

Take No Calomel! Listen To Me!

If bilious, constipated, headachy or sick, I guarantee relief without taking dangerous calomel which sickens and salivates.

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel laxy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile, crumbles into it, breaking it up. This is when you feel that awful nausea and cramping. If you are "all knocked out" if your liver is torpid and bile is constipated, you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful tonight, and if it doesn't straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine, entirely vegetable, and making you feel miserable, or worse, because it can't salivate or make you sick.

I guarantee that one teaspoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep the entire family feeling fine for months. Give it to your children. It is harmless, doesn't gripe and they like its pleasant taste.—Adv.

Beauty Chats

By EDNA KENT FORBES.

The Use Of Cosmetics.

COSMETICS suggests cold creams for cold creams are used more than anything else as beauty preparations. Yet I can hardly think of cold cream as a "beauty preparation," it is so useful as a cleansing agent.

However, this is the best formula for a plain cold cream that I know of.

White wax, one ounce.
Spermaceti, one ounce.

Almond oil, four ounces.
Oil of bitter almond, 15 drops.

Powdered borax, 30 grains.
Heat all these until blended in a small pan set in a pan of hot water.

Heat in another pan:
Rose water, four ounces.

Tincture of benzoin, one drachm.
Add slowly when both sets of ingredients are hot; remove from the heat and stir and beat as the mixture cools.

The more beating, the lighter the cream. When it begins to thicken—about like mayonnaise—pour at a bare and let it cool.

When cold it will be smooth and creamy and white and fragrant, altogether delightful to use.

The almond oil is very nourishing and somewhat bleaching; you cannot get a cream made of these ingredients nowadays under a very high price.

The benzoin makes the cream slightly astringent and keeps it sweet, the borax makes it white and fine. If you want a cream to use for winter especially, something to prevent the skin from chapping, use camphor oil instead of almond oil, or make it half camphor oil and half white mineral oil. If you want a cream as a bleach, use cucumber juice in place of the rose water. If you prefer something other than bitter almond perfume, get 15 drops of any perfumed oil and put in the cream instead. This is a very general though a very good formula, and can be changed slightly without any trouble.

Questions and Answers.

ANxious—You cannot expect your hair to be healthy while you are using peroxide. If you persist you will certainly kill every hair you have. I can send you the formula for an excellent tonic which will bring the hair in again, but of course it will come back to its natural color. You will be wise to do this—and perhaps the natural color will be found more becoming than the peroxide hair, anyway. Generally it is.

M. L. N. F.—Your treatment for getting stouter is excellent. You should benefit greatly by it. You should weigh 125.

A DRUID TEMPLE.

WITHIN a rim of a cup formed by the mountains of the English lake district lies a rugged circle of stones. A child of a giant race might have set up these mammoth pebbles in an attempt at the outline of a house foundation. As a matter of fact, Druid priests are said to have directed the placing of the stones to form an inclosure with an altar at one end, thus forming the simplest form of architecture known—a Druid temple.

At midnight was considered by the Druids as the appropriate hour for some of their most solemn ceremonies. The weird and impressive aspect of this and other Druid temples at night has not been changed by time.

All about the magic circle are the mountains, and purple in the shadowy night. The moon sends shafts of light across the peaks, and strikes the giant old stones with a greenish glow. The stillness of this shut-in temple seems waiting to be broken by the wail of a Druid invoking the gods, or by the crackle of flames upon the altar.

This is the place said to have been the last of the Druid rites. The tradition is that a maiden chosen as a sacrifice to drive away a plague from the people was rescued, as the fire was about to consume her, by a dozen streams of water rushing down the mountain sides. When the flames were extinguished the water rolled back and the intended victim walked out unharmed. At this remarkable sign from the gods, the Druids abandoned their human sacrifices, and even, it is sometimes said, their sacred temple.

Price Steers Sell At

\$25.25 Per 100 Pounds

Kennett, Mo., Jan. 16.—A prize herd of steers which sold for the record price of \$25.25 per 100 pounds was killed at the Swift plant here and dressed out 64.57 percent of the live weight, also a record percentage for prime cattle.

The average weight of the load was 1195 pounds. Local stockmen said the cattle were superior to many steers which sold during the recent international livestock exposition at Chicago at from \$25 to \$30 per 100.

Strike Of Nurses Ends

With Written Apology

Knoxville, Tenn., Jan. 16.—Twenty-eight pretty hospital nurses after going on a strike at the Knoxville general hospital have returned to their duties, submitting a written apology for charges they had made against the directors of nurses and her assistants. They had demanded the resignation of these directors, charging abuse of the nurses, use of improper language, and other improper conduct.

WILL HAS BUT 28 WORDS.

Chicago, Ill., Jan. 16.—Some lawyers use 1000 or more words in writing a will for clients, but attorney Sidney Stein required only 28 to leave his \$200,000 estate to his widow, it was learned today.

Sleep is the Body's Building-up Time

ONLY deep, sound sleep can restore the energy spent in your day's work.

You can't get this kind of sleep in a wooden bed that creaks and groans every time you move in it. Or a metal bed that rattles and sways. Or on a spring that sags—does not support the body.

People who know the facts are going beyond the mere looks of a bed, and asking about sleeping quality.

There isn't anybody anywhere but will sleep better in a Simmons Metal Bed and Slumber King Spring.

THE Simmons Metal Bed is noiseless. It locks firm at the corners. The corner locks are made of pressed steel—have much longer bearing surfaces than the average—fit true and snug—not a creak, rattle, or feeling of unsteadiness.

It is perfectly rigid—feels and moves like one solid piece.

The Simmons Pressed Steel Corner Locks are protected by basic patents. They

are the most fundamental inventions of modern bed manufacturing—exclusive with Simmons, not to be duplicated or imitated.

And these patented corner locks have made possible the Three-piece Bed—the new Simmons idea—the spring forming a single unit with the side rails.

If you want the most relaxing and constructive sleep anyone can get, you'll find it in a Simmons Twin Bed.

Everywhere people of refinement are learning that there's nothing like a separate bed for promoting perfect rest and good health.

This advanced thought about sleep has long been a Simmons specialty. They are pioneer makers of Twin Beds. There is nowhere a showing of Twin Beds equal to those produced by Simmons Company.

THE Slumber King Spring really does what you have always wanted a spring to do. It is a new and advanced idea. It is a system of elastic steel strips with spirals of high-test spring wire—so combined that the spring action is equal in all directions.

You'd be glad to get a good metal bed. The Simmons Bed comes in brass, and in enamel with or without brass trimmings. Also beautiful natural wood effects.

Not all furniture dealers carry Simmons Beds. But leading merchants everywhere have a complete stock of Simmons Beds and Simmons Slumber King Springs.

If you do not know the Simmons merchants in this section, we shall be glad to send you their names.

SIMMONS COMPANY

Built for Sleep

FRIDAY, JANUARY 17, 1919.

THIS should be a fairly fortunate day for Venus and Return are in benefic aspect. Jupiter is slightly adverse.

With the ending of this month there should be a better away for all the affairs of women. In industry they will focus attention and will make progress.

A nationwide educational movement for the benefit of girls is proposed by the stars and this will develop leaders for the future reforms in national life. The stars declare that the future of the United States lies in the balance and that it will continue to be so for some months, for there must be a period during which the material and spiritual forces clash.

It is prophesied that the benefits of the war will develop more rapidly in Europe than in America, for the reason that this country has been remote from actual contact with the horrors of the world combat.

This should be a lucky day for weddings and love affairs. Brides should be especially fortunate if wedded under the stars that rule during this configuration.

Real estate and building come under a planetary government making for profit. They who seek to own property will benefit, even though conditions governing acquisition are seemingly not favorable.

This way is not good for any sort of commercial venture. Bankers and merchants should be cautious during the next few months which will bring unlooked for conditions.

National enterprise of various sorts are prophesied and government aid in many educational lines is indicated.

As one of the reactions from war an exaggeration of person all importance

will be common, astrologers declare, and they warn against indulgence in criticism of persons in high place or in self pity of any sort.

Persons whose birthdate it is have the augury of a successful year. They will do well to push their business interests.

Children born on this day probably will be beauty and enterprising. They are likely to have very successful lives.—Copyright, 1919, by the McClure Newspaper Syndicate.

"Bachelor" Con Overlept; Then Secret Was Exposed

Kansas City, Mo., Jan. 16.—When Sgt. Albert Keyes, a bachelor member of the police motor cycle squad, failed to show up for work one morning, the chief ordered an investigation. He was called by telephone.

Sgt. Keyes is asleep. This is his wife speaking. Can I take the message?

This was the first intimation the police had that their fellow policeman had been married. It was a romance.

One day Sgt. Keyes met Mrs. Charlotte Page, a widow, on the McGee street traffic way, driving a speeding automobile. She smiled and promised never to speed again. The officer refused to take her to the station.

Often when his work was done the woman called at the station for him and took him home in her car. But not until he overheard the officer's know of the marriage.
